SFBAPCC March 28th Meeting - CANCELLED

Club Members,

We are all aware of the public health emergency created by the corona virus. Each day the news reports that the spread of this disease is expanding and that more and more events are being canceled and public and private venues are temporarily closing until the danger has passed. The “over 60” age group is said to be in the most peril, and that demographic, unfortunately, describes nearly all of our members.

For these reasons, the club officers have reluctantly decided to cancel the March meeting. This is doubly unfortunate, as we were going to have a great Expo program presented by our member and friend, Laura Ackley. Hopefully, Laura can present this program to us at a future meeting. No one knows how long this emergency will last, but for now we will still keep the April 25th meeting tentatively “on the calendar” until we see how the situation develops.

Meanwhile, be safe and stay well. (And don't forget to wash your hands).

Ed Herny - President
